Career Objective

Career Objective

Motivated DevOps professional with hands-on experience in **AWS, Linux, Docker, Git, GitHub, and Jenkins**. Experienced in application deployment, CI/CD automation, containerization, and troubleshooting. Seeking a DevOps opportunity to apply my technical skills and contribute to efficient, reliable, and scalable software delivery.

Work Experience

DevOps Intern

Propjini Technologies Private Limited | Jun 2026 – Present

- Worked under a Senior DevOps Engineer on cloud and deployment activities.
- Managed **AWS EC2 Linux servers** and application deployments.
- Used **Git/GitHub** for version control and source code management.
- Worked with **Docker** for containerization and **Jenkins** for CI/CD automation.
- Troubleshoot deployment, server, container, and application-related issues.

Technical Skills

DevOps Tools & Platforms: Docker, Jenkins, Terraform, Ansible, Kubernetes

Cloud & Infrastructure: AWS, AWS DevOps Services, EC2, VPC, IAM, S3, ECR, ECS/EKS

Version Control: Git, GitHub, Bitbucket

Operating System: Ubuntu, Linux

Scripting: Bash/Shell Scripting, Python

CI/CD: Jenkins, AWS CodePipeline, AWS CodeBuild, AWS CodeDeploy

Monitoring & Logging: Prometheus, Grafana, ELK Stack

Soft Skills

• Communication - Problem-solving - Analytical thinking - Teamwork – Adaptability-Time Management

Education

Bachelor of Computer Science	2025–2026
University of Mumbai	CGPA: 7.0
Higher Secondary Certificate	2021–2022
Art's & science college Nive B.k	Percentage: 51%
Secondary School Certificate	2019–2020
Madyamik Ashram School Nive B.k	Percentage: 80%

Projects

Cloud-Based Linux Server Deployment with GitHub Version Control & Automation

GitHub Link: <https://github.com/devaghanekar23/DevOps-Fundamentals-Project>

- Deployed and configured a Linux server on AWS EC2.
- Managed source code using Git and GitHub.
- Automated application build and deployment using AWS cloud.
- Configured server, networking, security, and application deployment.

Vedic-Maths Web Application--Cloud Deployment

GitHub Link : <https://github.com/devaghanekar23/Vedic-Maths>

AWS EC2, Linux, Docker, Docker Compose, Flask, MySQL, GitHub

- Deployed Flask application on AWS EC2 Ubuntu and containerized Flask & MySQL using Docker Compose.

Jenkins CI/CD Pipeline

Jenkins, GitHub, Docker, AWS EC2

- Created CI/CD pipeline using **Jenkins, GitHub, and Docker** for automated application deployment.

Cloud-Based Linux Server Deployment

AWS EC2, Linux, Git, GitHub, Docker

- Configured Ubuntu EC2 server and managed networking, security groups, ports, and deployment troubleshooting.

Certifications & Courses

Devops course with Executive Program in DevOps with AWS

June2026-Present
